Paper airplanes aren't just a toy that anyone can make, they're also serious demonstrations of aerodynamics! Use these resources to celebrate!

- Read the history of the paper airplane at the [Toy Hall of Fame](#).
- Learn about how aerodynamics work from [NASA](#).
- Check out some paper airplane designs from [simple to insane](#).
- Fold some planes and see how and how long they fly. See if you can beat the [world record](#) for distance.
- Try to perform some [stunts](#) with your paper airplane.
