

SERVICE DISRUPTION

The second floor will be closed on Tuesday, April 7 and Wednesday, April 8

The next disruptive portion of the project involves cutting into the roof to install for the installation of the curb on which our rooftop unit will eventually sit. This will only take two days, but will be loud and certainly not conducive to services on the second floor. So the second floor will be temporarily moving downstairs for a couple of days!

On Tuesday, April 7 and Wednesday, April 8, Adult Services and Teen Services will be relocated to the first floor. A selection of public computers will be moved to the Cheever Room for patrons to use. The Teen Room will move down with some of their public computers to the first floor meeting room.
